AGREEMENT

Between

Xtranet Communications

AND

**Technaks Communications
("The Supplier")**

**In Respect of providing a Legal Case
Management System with Extra
Customized Features.**

JULY 2024

Business Agreement

This Business Agreement ("Agreement") is made and entered into on this _____ by and between Xtranet Communications Ltd ("the Client"), and Technaks Communications ("the Service Provider"). The Client and the Service Provider may be referred to individually as a "Party" or collectively as the "Parties."

RECITALS

WHEREAS, the Client desires to procure a legal case management system with extra customized features;

WHEREAS, the Service Provider has the expertise and resources to provide the said legal case management system and agrees to furnish such services to the Client;

NOW, THEREFORE, in consideration of the mutual covenants and promises herein contained, the Parties hereto agree as follows:

1. Scope of Work

1.1 The Service Provider agrees to provide a legal case management system tailored to the specific needs of the Client as outlined Exhibit A attached hereto:

Business Agreement

1.2 The Service Provider shall provide ongoing support and maintenance for the legal case management for a period of one year after which a maintenance contract will be considered due.

2. Deliverables

2.1 The Service Provider shall deliver the legal case management system and customized features as per the project milestones and timeline outlined in Exhibit B attached hereto.

2.2 The Service Provider shall provide documentation, including user manuals and system administration guides, to the Client.

3. Compensation

3.1 The Client agrees to pay the Service Provider the total sum of KSH 650,000 for the services rendered under this Agreement.

3.2 Payment shall be made according to the following schedule: -

[Payment Milestone 1: KSH 325,000 - Due upon signing this agreement to help commence customization.

Payment Milestone 2: Due upon Deployment - KSH 325,000

Business Agreement

4. Confidentiality

4.1 Both Parties agree to keep all information exchanged during the term of this Agreement confidential and to not disclose such information to any third party without prior written consent of the other Party.

5. Intellectual Property

5.1 All intellectual property rights arising from the work performed under this Agreement shall be the property of the Client.

5.2 The Service Provider retains the right to use any know-how, concepts, or techniques related to the services provided under this Agreement for their own purposes.

6. Warranties and Representations

6.1 The Service Provider represents and warrants that the legal case management system will operate in accordance with the client's specifications.

Business Agreement

6.2 The Service Provider further warrants that it has the right to enter into this Agreement and perform the services as specified.

7. Termination

7.1 Either Party may terminate this Agreement with 30 days' written notice to the other Party.

7.2 In the event of termination, the Client agrees to pay the Service Provider for all work performed up to the date of termination.

8. Dispute Resolution

8.1 Any disputes arising out of or in connection with this Agreement shall be resolved through good faith negotiations between the Parties.

Business Agreement

9. Governing Law

This Agreement shall be governed by and construed in accordance with the procurement laws.

10. Entire Agreement

This Agreement constitutes the entire understanding between the Parties with respect to the subject matter hereof and supersedes all prior agreements and understandings, whether oral or written.

11. Amendments

This Agreement may be amended only by a written agreement signed by both Parties.

12. Notices

Any notices required or permitted under this Agreement shall be in writing and shall be deemed to have been duly given when delivered by hand, email, or certified mail to the respective addresses of the Parties set forth above.

Business Agreement

Signatures

IN WITNESS WHEREOF, the Parties have executed this Agreement as of the day and year first above written.

Function/ Operational Area	Requirement	Supplier Response
Matter Management and Tracking	• Customize Matter Management Dashboard for defining, uploading, tracking and reporting case matters. • Track and manage matters from start to finish • Implement matter-level access restrictions, allowing limits to user access to certain sections based on roles and privileges • Define matter fields such as matter name, matter status, date opened, primary clients,	Our LCMS offers an intuitive and fully customizable dashboard that simplifies the management of case matters. The dashboard allows users to define, upload, and track case matters effortlessly, providing comprehensive reporting capabilities to keep all stakeholders informed. Designed to handle the entire lifecycle of a case, our system ensures that every stage of a matter, from initiation to resolution, is meticulously tracked and managed. This holistic approach reduces the risk of missed deadlines and ensures all case details are up-to-date. The LCMS incorporates advanced security features, allowing administrators to implement matter-level access restrictions. Users are granted permissions based on their roles, ensuring that sensitive information is only accessible to authorized personnel. Users can define essential matter fields such as matter name, status, date opened, primary clients, and responsible attorneys. This feature ensures all relevant data is captured and

	responsible/originating/billing attorney and other required by client. • Create custom fields for each practice area to help with intake forms and document automation • Set matter options such as matter description, referral source, office and client goals • Set billing options such as billing attorney, billing group, notes, billing type, increment, billing options, and more • Set interest and rate options for outsourced legal cases.	organized, facilitating better case management and client service. Our system supports the creation of custom fields tailored to specific practice areas. This flexibility enhances the intake process and streamlines document automation, ensuring that all necessary information is collected efficiently. The system allows setting various matter options including matter description, referral source, office, and client goals. These options help in categorizing and managing cases effectively. The LCMS provides robust billing options, allowing users to set billing attorney, billing group, notes, billing type, and increment billing options. This feature ensures accurate and transparent billing practices. Users can configure interest and rate options for outsourced legal cases, ensuring financial terms are managed effectively.

Function/ Operational Area	Requirement	Supplier Response
	Keep track of updates with audit trail logging.	Our system includes comprehensive audit trail logging to track all updates and changes. This feature enhances accountability and provides a clear history of case activities.
Documents and Case file uploading	- Ability to seamlessly create, manage, store, and share unlimited document file formats - Unlimited document storage for large documents - Ability to organize and secure document file formats in the system. - Incorporate File templates and forms for legal documents such as contracts.	The LCMS enables users to create, manage, store, and share a wide range of document formats seamlessly. The system's user-friendly interface ensures that document management is efficient and straightforward. With unlimited storage capacity, the LCMS accommodates large documents without any restrictions, ensuring that all necessary files are securely stored and easily accessible. Documents are organized in a logical structure within the system, and advanced security measures ensure that sensitive files are protected against unauthorized access. The system includes customizable templates and forms for legal documents, such as contracts. This feature standardizes document creation and ensures consistency across all cases.

Function/ Operational Area	Requirement	Supplier Response
	• Ability for collaborating and versioning of file formats uploaded. • Ability to share and track file formats uploaded. • Intuitive Search Functionality for retrieval by title, text, or metadata. • Allow for e-signature on file formats.	Our LCMS supports document collaboration and versioning, allowing multiple users to work on a document simultaneously and track changes over time. Users can share documents with team members and track their status, ensuring that everyone stays informed about document updates and changes. The system's powerful search functionality allows users to quickly retrieve documents by title, text, or metadata, saving time and enhancing productivity. The LCMS includes e-signature capabilities, enabling users to sign documents electronically, reducing the need for physical signatures and speeding up the approval process.
Legal Calendar	• Set Rules-based calendaring • Set Two-way calendar synchronization	Our LCMS features rules-based calendaring that automates scheduling based on predefined rules, ensuring that important dates and deadlines are never missed. The system supports two-way synchronization with external calendar applications, ensuring

Function/ Operational Area	Requirement	Supplier Response
	• Color-coded, customizable categories • Ability to designate the type of event, including setting private event • Option to mark events as recurring • Option to add event invites to find specific matter-related contacts • Ability to associate events with specific matters • Ability to create time entries automatically	that all events and appointments are up-to-date across platforms. Customizable, color-coded categories help users visually organize their calendar events, making it easier to distinguish between different types of activities. Users can mark events as private, ensuring that sensitive appointments are only visible to authorized individuals. The LCMS allows users to set up recurring events, streamlining the scheduling of regular meetings and activities. Users can send event invites to relevant contacts directly from the system, ensuring that all necessary parties are informed and can participate. Events can be linked to specific matters, providing context and ensuring that all related activities are tracked together. The system can automatically generate time entries based on calendar events, facilitating accurate time tracking and billing.

Function/ Operational Area	Requirement	Supplier Response
	• Option to follow and view your team's calendars • Ability to set reminders • Date calculation with options to exclude weekends and federal holidays, and the ability to save calculations as templates	Users can view their team's calendars, enabling better coordination and scheduling of team activities. The LCMS allows users to set reminders for upcoming events, ensuring that important deadlines and appointments are not overlooked. The system includes advanced date calculation features, allowing users to exclude weekends and holidays, and save these calculations as templates for future use.
Workflows	• Automate workflows and incorporate to functions for mail exchange, add tasks and calendar appointments for specific types of matters and track their progress	Our LCMS automates key workflows, integrating mail exchange, task management, and calendar appointments for specific types of matters. This automation improves efficiency and ensures that tasks are completed in a timely manner.
Task Management	• Ability to sort tasks based on urgency and importance, and delegate and assign tasks to various team members	The system allows users to sort tasks by urgency and importance, ensuring that high-priority tasks are addressed first.

Function/ Operational Area	Requirement	Supplier Response
	• Create alerts when tasks are completed or overdue • Create reminders for when tasks are due • Tag, comment, color-code and prioritize as needed • Mark tasks as recurring • Assign tasks to specific matters • Attach documents to tasks • Automatically tie time tracking to tasks	Alerts can be set up to notify users via email and sms when tasks are completed or overdue, keeping everyone on track and accountable. Users can set reminders for task deadlines, ensuring that no important tasks are forgotten. Tasks can be tagged, commented on, color-coded, and prioritized to enhance organization and communication among team members. Recurring tasks can be easily managed by turning on a toggle button, reducing the effort needed to schedule regular activities. Tasks can be linked to specific matters, ensuring that all related activities are organized and tracked together. Documents can be attached to tasks, providing all necessary information and context in one place. The system automatically tracks time spent on tasks, facilitating accurate billing and time management.

Function/ Operational Area	Requirement	Supplier Response
Integration	Integrate to client's Active Directory and Mail.	Our LCMS seamlessly integrates with Organization's Active Directory and Mail systems, ensuring unified user management and efficient communication.
Accessibility & Hosting	Web based application to be hosted on Client's environment.	The LCMS is a web-based application and can easily be hosted in the client's server upon setting the software server requirements in the right manner providing secure and convenient access from any location with an internet connection.
